VPO Tour

Welcome to our VPO

Take an introductory tour of the new VPO 3.0. The new release has new functions and features. We've added an exciting new look, better navigation and faster performance, making it better than ever!

See your VPO the way you want it – everything that matters to you, all in one place. This VPO provides online management aids, collaborative workspaces, file storage and sharing as an integrated part of your total business solution.

Come see what VPO 3.0 has for you – less graphics, faster uploads and it's much easier to navigate.

One look and you'll be hooked!

My Sites

- This new option lists only the sites you are registered for. Here, on one page are the sites that you can access - No more guessing.
- Clear, concise easy to navigate, especially with your busy schedule.
- Of course, if you want to see the complete list of sites, that is still available.

Faster Downloads

Got a minute? When waiting for a web site to download, minutes seem like hours.

Knowing that time is of the essence, we have improved your new VPO 3.0 to provide faster performance and respond more quickly to your requests for document downloads.

We think you will notice the difference in your new

New VPO Projects

You can now manage your projects, instead of your projects managing you.

- Expanded from the old Action Item section into two levels
- Track items at the work order or project level
- Better links to the improved VPO Calendar
- Create reports, get metrics
- Six different views
- Link with Threaded Discussion to capture Project History

New VPO-Wide Discussion

- The new Threaded Discussion area allows all VPO members to share ideas, best practices and interact with the VPO staff -- all accessible from the VPO Entry Page.
- You can still capture context surrounding your documents and projects, using the Threaded Discussion, within your individual VPO sites.
- Discussion gives an easy to follow background from start to finish on tracking the life cycle of your project or document, providing a better chronological record than separate email systems.
